

EDUCATION

- 2020 - 2023** The Engineering school at ENSEM majoring in **Computer Science**
- 2018 - 2020** Preparatory cycle majoring in Physics
- 2017 - 2018** Baccalaureate majoring in physics sciences with a 4.0 GPA (first class honours)
- Languages:** Arabic (native), English (fluent), French (fluent)

EXPERIENCE

- 2022** **Wimtech.**
full stack developer intern
- Developed a microservices web application for online payment using Spring Boot and Angular within an Agile environment for 2 months.
 - Created the database of 22 tables using Mysql following best practices of database design
 - Completed 80% of the tasks assigned during the collaboration.
 - Integrated the CMI payment gateway into our web application, which resulted in 90% progress toward the project's goal.
- 2022** **NonAcademy.**
React developer intern
- Prototyped analytics page with React and chart.js.
 - Contributed to the development of an AI-testing web application with a team from 4 different countries.
 - Improved the user interface and user experience by 50%.
- 2021** **ENSEM.**
Front-end developer intern
- Delivered the project from design to testing of a scientific research website for 2 weeks

SKILLS

Frontend: HTML5, CSS3, tailwind CSS, Bootstrap, jQuery, Javascript (ES6+), Typescript, Angular.

Backend: Java, JEE, Spring Boot, Hibernate, Maven, Restful Webservices, API REST, Node JS, Mysql.

Tools: IntelliJ Idea, Eclipse, Visual Studio Code, Jira, Git, Gitlab, Docker, Kubernetes, Oracle

Others: Design thinking, communication, creativity, self-learning, teamwork, initiative

PROJECTS

- Implemented a monitoring system and temperature measurement with Raspberry Pi, by result getting 85% as a score in the analog electronics course.
- Developed a task manager and a contact manager CRUD websites using Angular, consequentially improving my Front end skills.
- Programmed a personal portfolio using React JS, significantly boosting visibility by 60% on LinkedIn.
- Built a fully functional mobile-friendly website for a digital agency using HTML, CSS, and JavaScript.

CERTIFICATIONS

- React | Redux Sololearn
- Java Sololearn
- Javascript algorithms and data structures FreecodeCamp

INTERESTS

- UX/UI design
- Digital Marketing
- volunteering
